

Texas 86th Legislative Session (2019)

In the 2019, Texas Legislative Update (86th session), David's Legacy Foundation led the effort to make changes affecting Public Schools:

1. All public schools are required to teach digital citizenship, including criminal consequences of cyberbullying.
2. Suicide prevention training will be done through health classes (Mental Health Bill HB18 & School Safety Bill SB11)
 1. **Note: health class is no longer a requirement, but we encourage parents to have their student take the health classes offered as they provide beneficial information on mental health to students.**
3. Expansion of anonymous reporting to now provide anonymity to school staff – David's Law provided anonymous reporting to students.
 1. **Note: Many schools provide anonymous reporting to parents as well.**
