

Texas 86th Legislative Session (2019)

In the 2019, Texas Legislative Update (86th session), David's Legacy Foundation led the effort to make changes affecting Public Schools:

1. All public schools are required to teach digital citizenship, including criminal consequences of cyberbullying. *(School Safety Bill SB11)*
2. Suicide prevention training will be done through health classes *(Mental Health Bill HB18 & School Safety Bill SB11)*
 - a) **Note: Health 1 is no longer a requirement by the state for graduation. We encourage parents to have their student take the health classes offered as they provide beneficial information on mental health to students.**
3. Expansion of anonymous reporting to now provide anonymity to school staff – David's Law provided anonymous reporting to students. *(School Safety Bill SB11)*
 - a) **Note: Many schools provide anonymous reporting to parents as well.**
